

And Finally...

Flying Officer Hutton shows us the moves

In addition to her 'day job' in the Military Patient (A) Cell at MDHU Peterborough, Flying Officer Jennifer Hutton RAF, pictured, has an interesting sideline.

She 'moonlights' as a Belly Dancing instructor for her colleagues at RAF Wittering.

A keen small bore rifle shot for the RAF, Jennifer, 26, told *Heads-up*: "The form of dancing I teach is called 'cabaret' and is a mixture of Turkish and Egyptian".

"I originally took it up at university and you'd be surprised at the range of people who attend my classes".
